SUMMARY

Computer Science and Systems Engineering graduate with foundational knowledge of Windows 10/11, computer hardware, networking, SQL, DBMS and operating systems. Familiar with basic troubleshooting of system, software and connectivity issues, along with Microsoft Office and basic Active Directory concepts. Seeking an entry-level Service Desk, IT Support or Desktop Support role where I can apply my problem-solving skills, support end users and build practical enterprise IT experience.

SKILLS

Technical Skills

IT Support Fundamentals: Windows 10/11, Computer Hardware Basics, Microsoft Office, Basic Remote Support, Basic System Troubleshooting

Networking Fundamentals: TCP/IP, DNS, DHCP, LAN/WAN, IP Addressing, Basic Network Troubleshooting

Database Fundamentals: SQL, DBMS Fundamentals

Operating Systems: Windows

Programming: Python (Foundational), Core Java (Foundational), HTML, CSS

Other: Basic Active Directory Concepts

Professional Skills

- Analytical Thinking
- Problem Solving
- Team Collaboration
- Verbal & Written Communication

PROJECT

IT Asset Management System

- Developed an IT asset management solution to track computers, laptops, peripherals and other IT assets across users, departments and locations.
- Designed workflows for asset issue, return, transfer, repair and status tracking while maintaining movement and repair records.
- Structured asset information including asset ID, category, make/model, assigned user, location, condition and lifecycle status.
- Built dashboard/reporting views to improve asset visibility, accountability and IT inventory management.

Blockchain-Based Certificate Verification System, *Academic Team Project*

12/2025 – 04/2026

- Developed a secure web-based academic certificate verification system as part of a four-member team using Python, Django, HTML, CSS, JavaScript, and SQLite.
- Implemented OCR-based certificate data extraction using OpenCV and Tesseract OCR for automated verification.
- Integrated SHA-256 hashing and blockchain concepts to improve certificate integrity and reduce document tampering.

- Collaborated on backend development and implemented secure certificate verification workflows within a four-member academic team.

PUBLICATIONS

VERIFICERTS: A Secure Blockchain-Based System for Academic Certificate Verification, *International Journal of Engineering Applied Sciences and Technology*
Co-authored a research paper presenting a secure blockchain-based certificate verification system. The research explored the use of SHA-256 hashing, OCR, and QR-based verification to strengthen document integrity, prevent certificate tampering, and improve secure verification processes.

18/04/2026

AI & GENERATIVE AI EXPOSURE

- Hands-on experience using ChatGPT for software development and technical documentation.
- Practical knowledge of AI prompt engineering.
- Experience using AI assistants for debugging, code explanation, testing, and productivity enhancement.

PROFESSIONAL EXPERIENCE

Dr. Reddy's Laboratories, *Technical Trainee (Apprentice)*
Completed a one-year apprenticeship with exposure to technical documentation, record maintenance and day-to-day operational activities.
Worked alongside team members and gained practical exposure to workplace troubleshooting, coordination and documentation processes.

07/2022 – 05/2023

EDUCATION

Bachelor of Technology – Computer Science and System Engineering, *Lendi Institute of Engineering and Technology*
CGPA: 7.83

2023 – 2026

Diploma – Electrical and Electronics Engineering, *Balaji Polytechnic College*
Percentage: 78%

2018 – 2021

SSC, *Sri Gurudatta Public School*
CGPA: 9.7/10

2017 – 2018
